## **About Bangkok**

Bangkok is an urban metropolis which size is matched by the many things to see and do. From its thriving nightlife scene and bargain shopping to some amazing historical sights, cultural attractions, wonderful food and blissful spas to spoil yourself. Your only regret will be not having enough time to experience it all. Take a moment to have a look at the many offerings of the City of Angels, and remember the better you plan your trip, the more likely you'd be able to sample the very best. Chances are good that you'll be hooked - just like those many people who keep on coming back for more.

Covering an area of 1,500 square kilometres, the greater Bangkok Metropolis fits into the 'big city' league with great ease. Add to that an estimated ten million inhabitants, more than 30,000 taxis and an ever-increasing number of tourists, and you'll soon realize that getting to grips with such a vast concrete jungle is no easy feat, especially if you're a first-time visitor. This is where our Area Guides come in pretty handy...

Certain areas have become more popular than others, largely due to their good location and the things there to do and see — be it traditional attractions, shopping highlights or a notoriously famous nightlife scene. Navigating this exciting city has also become much easier, thanks to the Sky train (BTS) and underground (MRT) systems connecting large areas. Get to know Bangkok a little better before your trip.
