We will be trying to quicken the pace as we are now running additional classes and heats and want to give everyone their money's worth. We will make every effort to arrange heats so that drivers running multiple classes will have time to prepare in between races and marshalling.

We will be trying to minimize the time in between heats of the same round. The announcer will begin calling the next heat to Pit Lane during the last minute of the current race. Please prepare and head to Pit Lane as soon as possible.

We will run at least 2 heats and a main for all classes. Time permitting, we will try and run 3 qualifiers.
