- Tamiya Mini Chassis Car, Orca Spark or SilverCan
- F1 Pan, 21.5 Brushless or Tamiya Silvercan Motor
- WorldGT 200mm, 13.5 Brushless 1s Boosted

### Nitro:

- 1/10 Nitro Car .12 Engine
- Classic Nitro Car (F1, Pan, Lola)

OPEN FOR ALL FROM BEGINNER  
RACERS TO SPONSORED DRIVERS

## Club Races

We are scheduling one club race per month, on the last Sunday of every month. We start with a practice hour or two, followed by 3 rounds of Qualifying, and then the Main events.

## Test and Tune Sessions

To prepare for club races, and Trophy Races from Victoria to Portland and everything in between, most Sundays will be controlled practice sessions with Fun Races ending the day.

## Cost

Keeping our overhead low, we are a temporary track that sets up and tears down every session. We charge \$25 to race for club races, and for the day in Test and Tune sessions.

Find us in the CANADIAN section

## Directions:

Where the two red lines are, there will be a gate, closed for much of the season. The single red line is where most GPS and google will guide you.

The best way is to enter the lot from heading North on Russ Baker way, and it will be your first right after Gilbert Rd. If you are heading South on Russ Baker way, the best way to turn around is to continue South past Gilbert, and U-Turn in the McDonalds.

## Facilities:

Please bring your own table and chairs, and power for yourself, or share with a friend!

We suggest a few people share one generator, or if you bring a spare car battery you should be fine as well (for the electric racers).

Washrooms are available at the McDonalds at Gilmore. To continue keeping our costs low we do not rent Portable Washrooms until the Annual Summer Challenge trophy race.

Thanks for checking us out and we hope to race with you soon!
