<p>SHOCKS / ショック FRONT / フロント REAR / リア</p>		<p>COMMENTS / コメント 2mm shim on camber link ball on front, bulkhead and 3mm on camber link ball on rear bulkhead. Stock chassis, end Marc Top Deck with this setup. Car too planted and not enough trimmer speed increase or push. And Dive in rear to help free rear end. New setup which I am trying this week has 50wt oil all around and 0 shims for roll center everything else stays the same.</p>
