COMMENTS

+2mm rear hex, red front spring 600353, swaybar play front 13.3 top of nut to bottom of arm, rear 13.5. need to trim rod ends and tie rod to run front camber link.

I switch between 2.3 and 2.5 rear swaybar, also white and yellow rear spring, and 10 and 12 deg castor, depends on track.

Another option for front shock is 4-A position, purple spring, 500cst, 6 hole 1.3 pistons for low grip
