

Sports Car R/C Racing Series

Background:

Create a class of cars that are realistic looking and fast. Find that missing gap from slower Trans-Am and cookie cutter dish-rimmed TC. Create a spec class for the experienced driver who can traverse to Stock/Super Stock Roar or GT1 TCS just by changing body and/or wheels. Investment and fun factor is maintained.

Specification

Body Specification

Tamiya, HPI or other 2 door sports car 190 mm bodies street drivable. Real (1:1) cars price must be more that \$50,000. Therefore, Toyota Super is ok. Celica is not. If not sure send email.

Example:

HPI

350Z, RX7, RX8, All Lamborghinis, All Ferraris, All Porsches, BMW M Cars 2(door), Honda NSX, Honda S2000, Saleen, All Lotus, Dodge Viper, Corvette, Audi TT, Porsche GT, Mercedes GT

Body provided deck lid spoilers allowed (not wings). Body provided hard plastic authentic looking wings allowed. Only lexan wing allowed is the Tamiya #TAM53470

No additional skirts or raised/extended wings or air control surfaces allowed. Body must be trimmed at body trim lines. All cars should have a number on the hood and both doors. All cars must have windshield banner

Tire and Wheel Specification

No dish wheels. Low profile rubber tires on 24, 26, or 28 mm rims. No chrome wheels. Wheel style should near match realistic cars. For example. 20 spoke wheel goes with Audi TT and Mercedes GT. It does not go well with a Porsche 911. Inserts free. Pre-glued wheel only if not dished.

Chassis Specification

Four whee drive touring car chassi only. Any era or brand 4wd chassis is allowed.

Motor Specification

Option 1: 19T ROAR motor

Option 2: 10.5 ROAR Brushless motor
